

How taxes can contribute towards the elevation of the country?

When the following provisions are made and implemented: -

1. Income tax should be abolished.
2. There should be only three taxes i.e. Excise, Sales tax and Service tax and with a maximum rate of 10% of any tax. For the beginners these taxes should be progressive.
3. For leaps and bounds progress of the country, an Equalization tax should be imposed on bank balances. This is a miraculous tax, which has not been imposed in any part of the world till date. But the country that will impose this tax will progress not by leaps and bounds only but will progress **Boundless**.
4. Other than the above taxes, there should not be any tax of any sort in the country.
5. Loans @0.01%pa interest (interest of Rs. 1000.00 on a loan of Rs. one crore in a year) should be available easily to everyone, who is having caliber or potential or capacity or qualification or any special feature.

If you wish to build our country Hindustan a Heaven, it is essential that taxes and loan facility in the country should be as given above.
