Purn Guru Shri Chandra Mohan Ji

This matter has great meaning as it has come from Purn Guru Shri Chandra Mohan Ji, who is a Master of the universe and is a Representative of God. Till date seven Purn Guru's have arrived on the earth and they are Shri Ram Chandra Ji, Shri Krishan Chandra Ji, Mahatma Budh, Jesus Christ, Chaitanya Mahaprabhu, Guru Gobind Singh and Madhav Rao (he was a ruler of Pune in 18th century) Shri Chandra Mohan ji has arrived on the earth to change the world. Now onwards there will be a beginning of *Satya Yuga* shortly.

To build our country Hindustan a Heaven

In this format we propose

President	-	?	Most popular person in the country at present
Vice President	-	?	Second most popular person in the country
Prime Minister	-	?	Third most popular person in the country

Professional persons desired for the management of the country are given in Annexure-2 of **Proposed format of the government** who are as under:-

Note: All specializes in their respective field.

Nandan Nilekani
Citizen/Business Information
System

Abhaya Prasad Hota
Banking System

Archit Gupta
Taxation System

Mukesh Ambani
Industries

Sunil Bharti Mittal
Services

Rohtash Goyal
Infrastructure

Anil Agarwal
Natural Resources and Minerals

Note: All or any of the above names can be changed, if there is any better alternative in that field. **This is a right of the public only to change.**

Note: There should be Centre and 23 States (as per list enclosed in proposed format of the government). The above named persons should be the country head and they should select 23 persons each for the management of the states in their respective field, so that every system is uniform all over the country.

Issues of Importance

1. How Political system, Judiciary, Police and Bureaucracy will function for establishing a strong democracy that has been given in details?

Political reforms Judicial reforms Police reforms
&
Role of bureaucracy

2. How need of day to day life can be managed easily and will be useful, practical and in the interest of a common man that has been provided also in the details?
3. Methodology of fast, quick and result oriented method, as a tool of management can be used as:-

Whatsapp in respective groups

Which can make the process of decision making the fastest one?

4. Functioning of the government which can be economical, efficient and engineered to address all the issues of the country is enclosed in a format. How it can be attractively done that has been given in our thoughts.
Alas this may happen in our country Hindustan! Its methodology has been given in the details.
5. Economical governance means – Costing of its management, few hundred crore only.
6. Economical business costs means, cost mainly involved in production only by eliminating administration cost of purchase, personnel, finance and marketing to a great extent in major big businesses. Indirectly means cheaper products and services.
7. Special feature for the countrymen and that is to possess on the basis of one's Caliber and Potential. But the person, who is lacking any of these, must get basic minimum necessities of life easily. Avenues for everyone, for job and other opportunities. Pension for everyone with a special provision for honoring those who contributed for the progress and prosperity of the country on the basis of their contribution.
8. A new concept of taxation which has not been applied in any part of the world but the country who will apply will progress not by leaps and bounds but boundless. Humanistic tax structure for progress and prosperity.
9. No paucity of finances for the government, the amount may be Rs. 10/20/50....1000 lac crore, as meaning of money is circulation only. How it will multiply and what measures have to be taken are given as under :-

From where the Government will get the money once Income tax is abolished:-

1. Manifold collection of taxes (Excise, Sales tax and Service tax) and there will be no scope for evasion/ theft of taxes after circulation of coins.
2. Equalization tax from those who are not contributing towards the taxes (business) or projects.
3. Government can borrow @ 0.01% p.a. interest, any amount say 10/ 20/ 50/ 100, 1000 lac crore as this amount is mere a book entry and circulation only, which is not refundable/ payable at all.

How circulation will increase many times?

1. Minimum pension to senior citizens @ Rs. 5000 p.m. to every person who is above the age of 60 years.
2. Pension to employees and permanent laborers @2.5% of last salary drawn for every year of service completed or 50%, whichever is more. In case any employee who retired long back, his pension should be the same, which is prevalent at present in the same cadre. (OROP).
3. Family pension @ 50% if members in the family are less than 2, otherwise 75% of the salary/pension last drawn.
4. Minimum unemployment allowance of Rs. 5000 p.m. or @ 2.5% of last salary drawn for every year of service completed or 50%, whichever is more. After 6 months this amount should be reduced to 1/2nd after 6 months – 1/3rd, after 6 months 1/4th and after 6 months – 1/5th and that should be known as *Nikhattu* allowance (useless person).
5. For the development of the villages, an amount of Rs. 1 crore to every village where population is less than 1000, Rs. 2 crore where population is less than 2000, Rs. 3 crore where population is less than 5000, Rs. 4 crore where population is less than 10000 and Rs. 5 crore where population is more than 10000 should be given. It should be a continuous process and whenever an amount given is about to exhaust, immediately that should be replenished, say after 90% of the limit.
6. Rs. 3000 p.m. to every woman and unemployed youth in cities and Rs. 2000 p.m. in villages for the purpose of one time food in a day free should be given.
7. At later stage (when infrastructure in the country is ready) Rs. 1 crore to every person in the country should be given, which can be spent for the purpose of tourism in a month in a year to everyone and if there is any surplus left, that should be refunded to the government.

Note: it can be made possible only after 8-10 years, once infrastructure is ready

8. Salaries of employees of the government and various organizations like banks, schools, hospitals etc to be managed and paid by the government.
9. Fresh loans of all types' @0.01% p.a. interest to all easily, who are having either caliber or capacity or capability or potential or qualification or any special feature.

These expenses, loans and amount paid for various schemes will help in increasing circulation of money many times and in return our country will progress, which will help in prosperity of the country and its elevation.

In nutshell money of the country, will be used for the country, by the country, within the country and for the people of the country.

10. Dollar may touch equal to one Rupee within a year or so of its implementation and in coming 10 years a Rupee may be equal to 100 Dollar by better planning and execution.

How Rupee one will be equal to one Dollar within about one year of the implementation:-

By implementation of the provisions mentioned in the details, Rupee one can be equal to one Dollar within about a year's time because:-

1. By having limit of gold, we can become an exporter of gold instead of an importer.
2. By waste management, we can become an exporter of organic fertilizer after 5 years or so, instead of an importer of chemical fertilizers.
3. By energy management, import of oil can reduce drastically. As far as solar power is concerned, its capacity can be increased to 1000 times of the existing capacity in coming 10 years. We can develop solar power cell, which can fulfill all our requirements of energy.

Note: In future all sources of all types of energies are going to be obsolete, other than solar power.

4. By setting up cottage industries in every village, we can become an exporter of various goods after 5-10 years or so, instead of an importer of everything from China.
5. By Implementation of transport and tourism management, inflow of foreign exchange can improve many fold and..... many more.

Although the above measures may take 5 to 10 years to implement but its effect can be visible within one year and after about 10 years, Rupee one may be equal to 100 Dollar.

11. How money of the Religious organizations should be used for the public only
12. In this system poverty, corruption and terrorism can be eradicated easily.
13. To plan better for the country a simple, satisfactory and subtle system of information with the help of Citizen/Business Information System, Banking System and Taxation System can be devised, which can provide any information, about any citizen, about any business, in any part of the country, at any moment.
14. Solution of the following questions you may get in details :
- How climate can be conducive for health? And we can contribute towards the problem of Global warming to make the world a better place to live.
 - How a guarantee of livelihood can be provided to each section of the society?
 - How a sure shot formula of unity of the country through Unity Reservation Policy can be made applicable or for students there is education, health services and food in school are equal and free or such a situation can / should be created that need for the reservation may end/ not there i.e. by applying the provisions of How our country Hindustan can become a Heaven?

- How Education and Health system should be created for the overall progress and prosperity of the country?
- How assets and profit of the country should be equally distributed amongst the citizens?
- How life of disabled can be made comfortable, along with tension free life especially for the parents of handicapped children?
- How overall development of each state can be made?
- How tourism can be developed for better job and other opportunities /prospects for the citizens?
- How social evils in the country can be minimized? And problem of *Talak Talak Talak* and polygamy faced by Muslim women can be sorted out permanently?

Above all Respect, Rights and Opportunities for every citizen with an Equality amongst citizens (Equality does not mean that all are the same irrespective of their caliber and capacity/potential, but the person who is lacking these must get basic necessities of life easily), improvement in their existing capacity and overall politeness in the society/country and what not.....

All this is not a dream only but can be converted into a reality easily. Once you will go through the details, you yourself will realize/say that it can be done easily. Only then you will realize the Power of thought.

An introduction of **How our country Hindustan can become a Heaven?** along with its details and schedules for Social media is enclosed.

Our thoughts in the form of a proposal - **Alas this may happen in our country Hindustan!** along with its details are enclosed. We request all of you to send these thoughts to our P.M. (if you like it) so that these can be implemented and our country in real sense may become a Heaven.

Actually these thoughts can be implemented by him only as he is the most popular and powerful political leader of our country.

We will be anxiously waiting for that moment to come in our life, the day these provisions are implemented. Hoping this moment will certainly come in our life very soon as Modi ji will come forward for this cause.

Our interest: We discussed these thoughts with few hundred persons and every one said only one thing - **Alas this may happen in our country Hindustan!**

Note: This information we have received from Shri Paramdham, Meerut and all actions are as directed by Purn Guru Ji.

How our country Hindustan can become a Heaven?

An Introduction

Every human being on the earth always desires that his / her quality of life should be better may be physical, mental or intellectual. At present this is a thought process only. Thought can be so powerful and can do miracles also which you may see yourself shortly.

If we wish to achieve anything or as given in Alas this may happen in our country Hindustan, a little effort is required and that may be a drop of water in the ocean, along with the thought. A drop of water in the ocean may be immaterial but it does not matter, as one has put his/her best effort.

For any change clear cut thoughts, direction and its implementation are required. At present in this proposal these are thoughts only and direction can be given by an individual and that can be by his/her contribution for the change. At the end of this proposal- Alas this may happen in our country Hindustan, that is given i.e. How you can contribute in this program.

Please come forward and see everything happening shortly.

Now you are having:-

1. Thoughts in the form of A Proposal-Alas this may happen in our country Hindustan!
2. Your contribution is your direction. When we are united and everyone does his/her little bit, that will certainly bring change.
3. As far as implementation is concerned that will arise only after the change has taken place. If collectively we decide only then details and its methodology to implement all this can be provided to our Prime Minister. **Everything for the success of this proposal will depend upon our Prime Minister only. He is the only person who can implement this as he is the most popular and powerful politician of our country.**

Success of this proposal will also depend upon how rigorously we pursue our PM to implement this proposal. If the P.M. does not help us in the implementation, then it can be done by organizing a demonstration soon.

Now choice is yours.....

1. Life as it's going on.
Or
2. Life as given in the proposal.

A proposal and details.....follows as per schedule attached

Regards
